Supra Magnum

Data Sheet

The Magnum is Supra's most durable mechanical KeyBox in the automotive market. Made from non-corrosive zinc alloy, the Magnum's sidewalls are 33% thicker than previous KeyBoxes.

Utilizing the proven Title™ lock and key system which permits only authorized access, the Magnum is completely compatible with all of Supra's existing KeyBoxes.

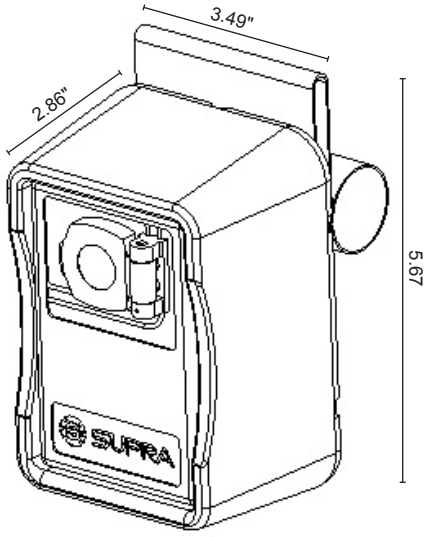
Features

- Greater storage capacity for multiple keys and remote devices
- Improved tamper resistance
- Improved durability
- Secured Title™ lock
- Personalized nameplates available

Benefits

- Service customers faster
- Improve efficiency of operations
- Salespeople stay with prospects at all times and can easily move with them from vehicle to vehicle

Magnum was designed in response to the demand for a bigger and stronger KeyBox. Re-engineering the cam of the lock increased durability and improved the KeyBox's resistance to tampering. The new design features a recessed lid which also adds to the security and durability.



The durable Magnum keeps keys with the vehicle
